Education

University of Oxford

M.Sc. in the Mathematical Sciences

Sep. 2020 - Jun. 2021

- Final Grade = **Distinction**
- Modules: Advanced Statistical Machine Learning, Theories of Deep Learning, Advanced Simulation Methods, Algorithmic Foundations of Learning, Continuous Optimisation, Networks.
- Thesis: "Lévy Processes in Bayesian nonparametric models", supervised by Dr. Matthias Winkel.

University of Patras

B.Sc. in Mathematics

Sep. 2016 - Aug. 2020

- Final Grade = **Distinction**, Rank: 02/311.
- Thesis: "Brownian motion and the Black-Scholes model", supervised by Dr. Ioannis Dimitriou.

Work Experience

Squarepoint Capital

Quantitative Analyst

Nov. 2022 - now

- Built a service providing refined trading data across voice traded instruments for systematics & discretionary traders [90% accuracy].
- Handled alpha generation, portfolio construction, and risk management for a cross-market, systematic strategy in Fixed Income.
- Onboarded contributors in the Buy-Side, Sell-Side Alpha capture business in Equities and Fixed Income.

IST Austria

Research Assistant

Jun. 2021 - Jun. 2022

- Performed research on optimization requirements for deep neural networks, supervised by Dr. Marco Mondelli.
- Developed a feed-forward architecture that speeds up learning in binary classification by 85% [PyTorch].
- Improved state-of-the-art overparameterization requirement by $\mathcal{O}(N^{3/5})$ in global convergence guarantees of neural networks.

Projects, Startup

🚲 TFL Bike Demand

Aug. 2022

- Built a linear model for predicting short-term bike demand in London using TFL data.
- Scrapped, pre-processed data using Pandas, NumPy, used matplotlib and seaborn to visualize results.
- Discovered a strong linear relationship between number of bikes and duration of them being used.

Coffeeco

Jan. 2018 - Jan. 2019

- Built a startup of 9 people, collaborated with 4 businesses and pitched to 50 investors.
- Won 4 national startup competitions (pre-incubators): 20,000€.

Skills, Social & References

Programming: Python [pandas, NumPy, plotly, PyTorch], R.

Social: 🐙 christospapmath 🌐 Christos Papachristou

References: Dr. Marco Mondelli [IST Austria], Dr. Matthias Winkel [Oxford], Dr. Renaud Lambiotte [Oxford].

Interests: chess, self development books, fitness.

Awards

Hellenic Petroleum Group Scholarship, 21,000€

2020 - 2021

Archibald Jackson Oxford College Award

2020 - 2021
